

CAPABILITY STATEMENT

Infrastructure & Development Projects in Africa

Agacan Tarım Gıda Turizm Ltd. Şti.

ACG Industrial & Infrastructure Solutions (ACG IIS)

ACG-IIS-CAP-DP-001 | Rev. 1.0 | 28 March 2026

EXECUTIVE SUMMARY

ACG IIS delivers integrated Engineering, Procurement, Construction, Compliance, and Administration (EPCCA) solutions for infrastructure and development projects across Sub-Saharan Africa. We work with development agencies, NGOs, bilateral donors, governments, and international implementing partners to deliver projects that meet the highest institutional standards — not as a commentary on what should be done, but as the body that does it.

Our value proposition for development projects in Africa is specific: we eliminate the coordination gaps that cause most development project failures. Donors fund. Agencies implement. Procurement gets subcontracted. Logistics breaks down. Compliance is retrofitted. ACG IIS replaces that fragmented model with one integrated body, one contract, and one accountable partner from engineering specification to final handover.

PROJECT TYPES

Project Category	Typical Scope
Water & Sanitation	Solar/electric borehole specification and drilling supervision, pump procurement and installation, water treatment units, distribution pipework, community storage tanks, sanitation facility construction
Health Facilities	Health centre construction and fit-out, medical equipment procurement, electrical and mechanical services, solar power systems, waste management systems, WASH facilities
Education Infrastructure	School building construction, furniture and equipment procurement, electrical fit-out, ICT infrastructure, WASH facilities, perimeter security
Agricultural & Food Security	Irrigation system specification and installation, storage facility construction, agri-equipment procurement, processing facility fit-out, cold chain infrastructure
Community Infrastructure	Community centre construction, market infrastructure, feeder road surfacing, perimeter works, public lighting installation
Humanitarian Logistics	Emergency shelter procurement and delivery, NFI kit sourcing and distribution, field logistics coordination, delivery verification

	and proof of delivery documentation
Industrial & Commercial	Warehouse construction and fit-out, industrial facility electrical and mechanical services, manufacturing equipment procurement and installation

DONOR AND FUNDER COMPLIANCE

ACG IIS is structured to meet the procurement, reporting, and compliance requirements of the major development funders operating in Africa:

Funder	ACG IIS Compliance Capability
World Bank / IDA	WB Procurement Regulations 2020; IFC Performance Standards 1–8; ESCP preparation; ESMP implementation; Grievance Redress Mechanism support
USAID	AIDAR-compliant procurement; local cost share tracking; approved source compliance; PERSUAP pesticide evaluation where applicable
UNICEF / WFP / UNDP	UN procurement rules compliance; harmonised approach to cash transfers (HACT) preparation support; UN supplier registration
African Development Bank	AfDB Procurement Policy 2015; Integrated Safeguards System (ISS); east and southern Africa regional presence
EU / EDF	PRAG procurement rules; DEVCO contract management; visibility requirements; Results-Oriented Monitoring (ROM) compatibility
DFID / FCDO (UK)	UK procurement standards; Scottish institutional connection; DIME/GRIP framework awareness
Bilateral Donors (Germany, Japan, US)	Framework for donor-specific procurement and reporting rules as specified in grant or contract documentation
Government of Uganda	Public Procurement and Disposal of Public Assets Act 2003; PPDA regulations compliance; local procurement preferences

GEOGRAPHIC COVERAGE

Region / Country	Operational Capability
Uganda	HQ field operations — full EPCCA service delivery, local authority relationships, community engagement capability
Kenya	Project operations support from Uganda base; logistics through Mombasa and Nairobi
Tanzania / Rwanda	Project deployment from Uganda base; regional supply chain via NOVA network
South Sudan / DRC	Complex environment delivery — supported by humanitarian logistics expertise within NOVA/Mazima framework

Ethiopia / Somalia	Supply chain and procurement support; field execution in partnership with local implementing organisations
West Africa (Ghana, Nigeria)	Procurement and supply capability via NOVA network; local implementation partner model

THE NOVA PLATFORM ADVANTAGE

ACG IIS operates within the NOVA Platform — a five-member integrated alliance covering every stage from humanitarian vision to last-mile delivery. For development project owners, this means:

NOVA Member	What it adds to your project
Mazima	Humanitarian channel — donor trust, dignity-preserving aid mechanics, transparent tracking from donation to outcome
ACG IIS	Technical brain — engineering, procurement, construction, compliance, administration (this document)
RedGround	Procurement showroom — 300,000+ products, 135+ suppliers, 24-hour technical and commercial proposals
Tenderion	Marketplace — tenders, RFQs, purchase orders, contracts, and supplier/contractor recruitment
Adana Ekspres	Logistics muscle — cargo consolidation and last-mile delivery from Turkey to East Africa and MENA
